Norman Avery

Norman Avery was a notable figure, particularly known for his contributions to aviation. Born on December 23, 1920, in Kurri Kurri, New South Wales, Australia, Avery's life was marked by his adventurous spirit and significant achievements -

Avery's career was filled with remarkable feats, especially in the field of aviation. He was known for his daring rescues and innovative solutions to mechanical problems during his flying years. His book, "Whiskey Whiskey Papa: Chronicling the Exciting Life and Times of a Pilot's Pilot," provides a

detailed account of his experiences and adventures. This book is filled with humorous anecdotes and stories of his resilience and ingenuity, such as repairing a demolished undercarriage with an old bed frame and fixing a broken tail section with ski poles.

Avery's contributions to aviation were recognized with numerous honors, including the Order of Canada, the Trans-Canada McKee Trophy, and membership in the Aviation Hall of Fame. He passed away in May 1977, leaving behind a legacy of bravery and innovation -
